WORK EXPERIENCE

Data Analyst, Northway Retail (2022 to present)

Built Power BI dashboards for weekly sales KPIs. Wrote SQL and Python (pandas) scripts that automated the weekly report, saving about 6 hours a week. Presented results to store managers and regional directors. Built ETL jobs in Python loading data from a REST API into PostgreSQL.

Junior Reporting Analyst, Harbor Supplies (2020 to 2022)

Produced monthly stock and supplier reports in Excel and SQL for a supply-chain team. Cleaned and reconciled data from three internal systems, cutting reporting errors.
